ATHARV LAMBA

New Delhi, India | +91 84488 31860 | atharvlamba56@gmail.com | LinkedIn | GitHub | LeetCode

SUMMARY

IT undergraduate at Delhi Technological University (Department Rank II) building applied AI systems in speech, vision and LLMs. Two-time hackathon winner, including the AIMS-DTU × Google DeepMind hackathon, and GSSoC 2026 contributor. Looking for AI/ML and software engineering internships.

EDUCATION

Delhi Technological University – B.Tech, Information Technology — Aug 2025 – Present
CGPA 9.65/10 · Department Rank II

Delhi City School, Delhi – Class XII (CBSE) — 2025
91.2%; 99.2 percentile in JEE Main (2025); qualified JEE Advanced

Sachdeva Public School, Rohini – Class X (CBSE) — 2023
94.6%

PROJECTS

Real-Time Voice Deepfake Detection | *PyTorch, XLSR-Mamba, FastAPI, ONNX* — Smart India Hackathon

- Fine-tuned an XLSR-Mamba anti-spoofing model to detect cloned voices in 5 Indian languages, reaching **99.85% accuracy and 0.16% EER**, including on WhatsApp-style Opus-compressed audio.
- Generalised without extra training to 4 more languages (98–100% accuracy); built an ASVspoof5 baseline (2.77% EER) and deployed the model in a live call-monitoring system that flags risk in real time.

Visual Commonsense Reasoning (VCR) | *Qwen2.5-VL-7B, QLoRA, PyTorch*

- Fine-tuned a 7B vision-language model with QLoRA (<1% of parameters trained): **72% Q→A, 63.5% QA→R, 50% joint** accuracy vs a 25% random baseline.
- Built a visual-grounding pipeline that draws boxes around the people each question refers to; fixed bugs in the training loss and evaluation code.

ContraMesh – AI Contract Analysis | *Gemma 2, Z3 SMT, FastAPI, React*

- Gemma 2 extracts contract obligations; a Z3 SMT solver proves which clauses contradict each other, and KL-divergence scores how one-sided each clause is.
- Three-tier inference fallback: Google AI Studio API → local vLLM on two GPUs → regex parser.

Also built: Hand-Gesture-Controlled Drone (8 commands, <30 ms) · Gesture-Controlled System Commands · ResuRank AI resume screener

EXPERIENCE

AIMS-DTU – Member, AI/ML Society — Oct 2025 – Present

- Built the VCR, gesture-drone and gesture-control projects as society work.

GirlScript Summer of Code 2026 – Open Source Contributor — May – Aug 2026

ACHIEVEMENTS & CERTIFICATIONS

- **First Place**, AIMS-DTU × Google DeepMind Hackathon 2026 – built BeforeYouSign, a legal-tech tool that flags risky contract clauses using Gemma 4 locally.
- **Best Real-World Impact Award**, Synapse AI Hackathon 2026, DTU (640+ participants, 100+ colleges).
- **LeetCode:** 221 problems solved, contest rating 1,480.
- **Certifications:** Deep Learning Specialization (DeepLearning.AI) · Machine Learning Specialization (Stanford & DeepLearning.AI).

TECHNICAL SKILLS

Languages: C++, Python, C, JavaScript, TypeScript
AI / ML: PyTorch, TensorFlow, Scikit-learn, QLoRA, ONNX, vLLM, OpenCV, MediaPipe, NumPy, Pandas
Web & Tools: FastAPI, React, Tailwind CSS, WebSockets, Git, Z3 SMT Solver
